Tank 1: Same as 1500GH
Tank 2: Same as 1500GH
Total Capacity: 2920 Litres

4500GH (3 Tank System)
Tank 1: Same as 1500GH
Tank 2: Same as 1500GH
Tank 3: Same as 1500GH
Total Capacity: 4380 Litres

- Shallow excavation dig
- Pea shingle backfill suitable for most installations

Standard with all Garden Harvest (GH): Storage Tank(s) | Moulded in lifting eyes | Extendable 500mm inlet invert | 110mm inlet, outlet and service connections | Integrated Filter | Submersible Pump | 25m coil of 25mm black and green HDPE pipe | Pedestrian duty manhole cover

Please Note: Pipe to join the tanks not supplied

Home Harvest Direct

Complies with EN 16941-1:2018*

The 'Home Harvest Direct' range of rainwater harvesting systems allows you to collect, store and distribute rainwater for use in both the home and garden via a control panel in the home. The control panel uses mains water to replenish the tank.

1500HHD
Length 2300mm
Width 1150mm
Height 1250mm
Capacity 1460litres
Weight 110kg

3000HHD (2 Tank System)
Tank 1: Same as 1500HHD
Tank 2: Same as 1500HHD
Total Capacity: 2920 Litres

4500HHD (3 Tank System)
Tank 1: Same as 1500HHD
Tank 2: Same as 1500HHD
Tank 3: Same as 1500HHD
Total Capacity: 4380 Litres

- Shallow excavation dig
- Pea shingle backfill suitable for most installations

Standard with all Home Harvest Direct (HHD): Storage Tank(s) | Moulded in lifting eyes | Extendable 500mm inlet invert | 110mm inlet, outlet and service connections | Integrated Filter | Submersible Pump | Control Panel | 25m coil of 25mm black and green HDPE pipe | Pedestrian duty manhole cover

*As part of an overall system
