MAXX CATTLE MAG

High magnesium, extremely palatable molassed feed and mineral lick ideal for grazing cows at risk from grass staggers during spring and autumn.

Features & benefits:

- Contains a high level of palatable bioavailable magnesium for use where there is a risk of grass staggers, especially in lactating cattle.
- High level of sugar for palatability and to support consistent intakes.
- Minerals, vitamins and trace elements, including optimal levels of copper, support stock performance, health and fertility.
- Available as both 22.5kg or 80kg formats to suit your system.

Ideal for:

- Dairy and beef cows at risk of grass staggers during spring and autumn.

User guide:

- Offer free-access at a ratio of one 22.5kg bucket per 15 head of cattle, or one 80kg tub per 50 head of cattle.
- Ensure ad-lib forage is always available.
- For where badgers present an issue, offer in the Rumenco Badger Blocker feeder.
- Do not feed to sheep (contains copper).

Typical intakes:

- Cattle up to 300g/head/day#.

*Consumption will be influenced by number of feed points per head of stock, forage availability and quality, other feeds available, age and breed of stock and proximity to water sources.
