SUPALYX® Sheep

A high specification mineral, vitamin and trace element bucket to help support flock health and performance all year round.

Features & benefits:

- Ideal for tupping where only minerals, vitamins and trace elements are required to support performance e.g. prolific sheep breeds.
- Optimal balance of minerals, vitamins and trace elements to help balance potential deficiencies in forages.
- Includes vitamin B1 for where there is a risk of CCN (cerebrocortical necrosis) and vitamin B12 to help support good growth rates on cobalt deficient pastures.

Ideal for:

- All classes of sheep on forage-based systems throughout the year.
- Ewes at tupping time where no extra energy is required.

User guide:

- Offer free-access at a ratio of one 22.5kg bucket per 35 head of sheep.
- Ensure ad-lib forage is always available.

Typical intakes:

- Sheep up to 30g/head/day#.

Product Specification:

Typical sugar (as sucrose) %	21.5
Calcium %	14
Phosphorus %	0.5
Magnesium %	3
Sodium %	6
Selenium mg/kg	20
Cobalt mg/kg	20
Iodine mg/kg	100
Manganese mg/kg	1,000
Zinc mg/kg	3,000
Vitamin A iu/kg	200,000
Vitamin D ₃ iu/kg	40,000
Vitamin E iu/kg	500
Vitamin B ₁ mg/kg	100
Vitamin B ₁₂ mcg/kg	200

Consumption will be influenced by number of feed points per head of stock, forage availability and quality, other feeds available, age and breed of stock and proximity to water sources.
