TecMol Energy

High energy molasses-based liquid feed that improves diet palatability and offers a combination of sugars and protein. Ideal for where extra energy is required in all cattle and sheep rations.

Features and benefits:

- High energy liquid feed ideal for where additional energy is required in cattle and sheep rations to support animal performance.
- High in sugar to provide energy to support feed digestion and dry matter intake.
- Aids overall ration palatability and suppresses dust.
- Very easy to handle at low temperatures.
- Comes with the unique enhanced aroma of a unique fruity liquorice flavour.

Ideal for:

- Ewes from 2 weeks pre-tupping for 8 weeks.
- In-lamb ewes from 6 weeks pre-lambing.
- Flock replacements and weaned lambs.
- Breeding cattle, including bulls, in the run up to and during bulling time where no extra copper is required.
- Growing and finishing cattle where no extra copper is required.

User guide:

- Mix into feeds or top-dress onto forages to provide the typical daily intakes below.
- Ideal liquid to use in a home mixed ration to reduce dust
- Offer free-access via twin ball feeders to cattle or ball feeders to sheep.
- Please seek nutritional advice before feeding this liquid to ruminant youngstock under 5 months or in a diet that contains Grass Silage.

Recommended feeding (per head/day):

Dairy (kg)	Youngstock (kg)	Beef (kg)	Sheep (kg)
1-2.5	1-2	1-2	0.2-0.5

* Please note that the above specifications are a guide only and are provided as a "typical" analysis. Raw materials used in liquid manufacture may be co-products, and as such are subject to potential variation. Therefore the values shown are not a guarantee of actual analysis which will be provided on the product label/delivery documentation at time of delivery.

Product specification#:

Dry Matter %	60
Energy (MJ/kgDM)	12
Typical sugar as sucrose** %	40 (24)
Crude Protein** %	13.5 (8.1)
Litres/tonne	770

** Dry matter values (FW in brackets)
