TecMol Mag Pal

Highly palatable molasses-based liquid feed containing soluble magnesium. Ideal for cows and ewes at risk of grass staggers in spring and autumn.

Features and benefits:

- High magnesium liquid feed containing soluble fast-release magnesium for where there is a risk of grass staggers.
- Molasses base ensures the liquid is highly palatable for good consistent intakes.
- Readily available sugar provides energy to support feed digestion and dry matter intake.
- Easy to handle product.

Ideal for:

- Dairy and beef cows at risk of grass staggers during spring and autumn.
- Ewes post-lambing.

User guide:

- Offer free-access via twin ball feeders to cattle or ball feeders to sheep.
- Mix into feeds or top-dress onto forages to provide the typical daily intakes below.
- Best used in a TMR ration.
- Not suitable for ewes pre-lambing or ram lambs.

Recommended feeding (per head/day):

Dairy (kg)	Youngstock (kg)	Beef (kg)	Sheep (kg)
1-2	1-1.5	1-1.5	0.1-0.2

#Please note that the above specifications are a guide only and are provided as a "typical" analysis. Raw materials used in liquid manufacture may be co-products, and as such are subject to potential variation. Therefore the values shown are not a guarantee of actual analysis which will be provided on the product label/delivery documentation at time of delivery.

Product specification#:

Dry Matter %	57
Energy (MJ/kgDM)	8.8
Typical sugar as sucrose** %	42 (23.9)
Crude Protein** %	5.5 (3.13)
Magnesium* %	3.5
Litres/tonne	818

* Magnesium products should only be fed to ewes post-lambing

** Dry matter values (FW in brackets)
